

Name: Anthony Archie

UWID: ArchieA

Operating Systems:

- MacOS, Windows.
- I prefer to work on my windows machine as the processor is much faster than my old macbook, but either are fine. I have interest in learning Linux when I have time this summer.

Programing Languages:

- Java, I consider myself proficient in java and it is currently my favorite programing language.
- Python, I consider myself a novice in python, I took an intro class about 5 years ago and have not touched it since.
- I would like to learn more python and C# when I have time this summer.

GUI Background:

- We did a brief project using Swing in 305 but not enough to consider myself comfortable in any means. I would love to learn some JavaFx this quarter if possible.

Web Technologies:

- None at this time.

Mobile Platforms:

- None at this time.

Databases:

- None at this time.

Database Programing Languages:

- None at this time.

IDE:

- I prefer to work in IntelliJ but I have some limited experience with Eclipse, and most of my 142 class was done using Jgrasp.

Names of others I would like to work with:

- Gil Rabar & Justin Noels and I are going to make a go at it this quarter.
